# FIRST EVER 3-STEP HOTSTONE GRILLING FROM KOREA!

**1**

## **SEAR**

Prime cuts of meat are seared to perfection on hotstone pans specially custom-made in Korea, locking in their natural juices and flavours. Heated to 180 degrees before serving, the hotstones kickstart the Maillard reaction which results in greater complexity of tastes and aromas of the meat.

**2**

## **TORCH**

The powerful Fire Blasters, capable of reaching scorching temperatures of up to 1,400 degrees, deliver delicious char and smokiness to the meat exterior.

**3**

## **FLAMBÉ**

The meats are served on individual hotstone plates, doused with our Special Essence and set ablaze right before your eyes to impart an extra dimension of complexity to the dish.

ALL COMES WITH A FLAMBÉ SHOW!
